

Vex Motion - "The Maze"

Gradesheet - (50 pts.)

Purpose: Students will program their robot to complete the maze by using all the commands shown below.

Your Mission:

Your robot is to follow the path shown in the video and map above. It shall always move in a straight path and not touch any of the colored lines. When your robot comes to a stop in the corresponding red striped area, your mission will be considered a success.

Good Luck!
