

Photo / Film Quality Standards

Visit each of the web pages at the “Photo/Film Quality Standards” website. Each page has one specific problem that matches one of the Quality Standards below. Please help me determine what is the problem reflected on the page and then help me determine which photos should be kept and which should be deleted.

(Even though several problems might appear on a page, only one will be seen throughout all the photo sets. Once you have matched Quality Standard to the problem on a page, that Quality Standard can't be a match for any other page.)

Photo / Film Quality Standards				
Lighting	Framing	Background	Back of Head	Blur
Action	Smiling	Closed Eyes	Cut Off Body Parts	

Photo Problem #1

What is the problem common to the three photos seen in this set?
