

Design Document - Grade Sheet (60pts.)

Step #1: Choose Your Apps Theme

- A personal app about you and your hobbies / interests.
- An informational app.
- A flash card app for studying for quizzes
- An app with a different game on each screen

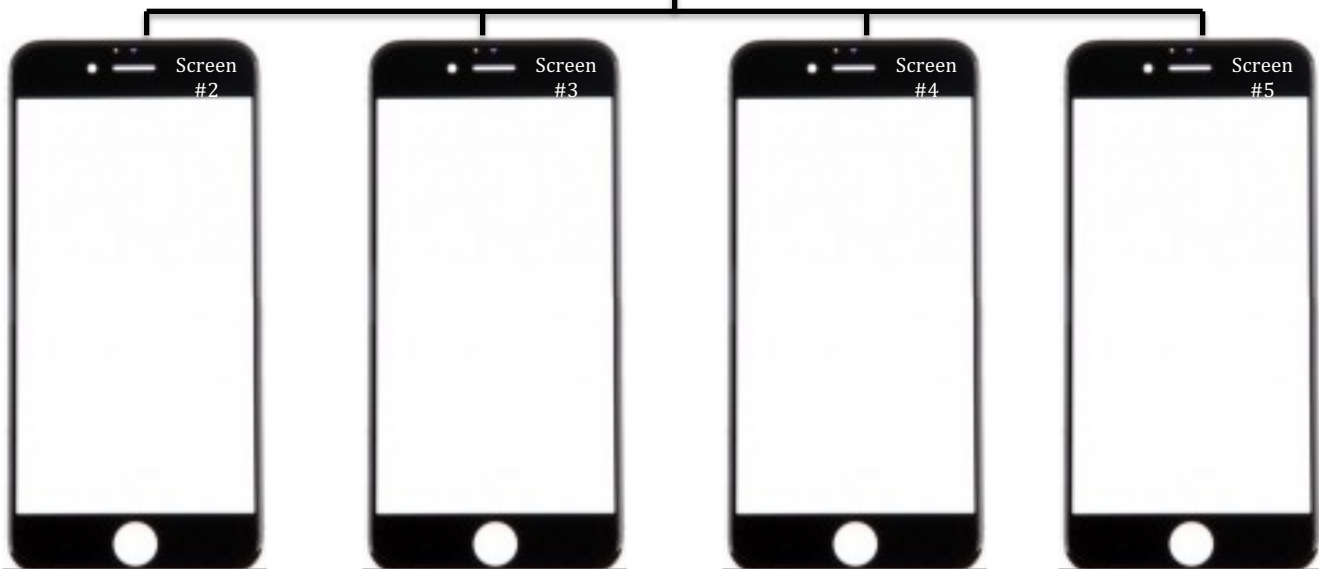

Step #2: Diagram The User Interface

- Draw the User Interface on the 5 screens presented here. (Note: Look at the Model I created as an example.)
- Each screen must have at a Minimum: 1. A Text/Title, 2. A Button (trigger or link), 3. An Image, 4. Explanation.

Step #3: Present your Code.

- Write the code you intend to use on each screen on the provided fields.

Write the code you intend to use on this screen below.

Write the code you intend to use on this screen below.

Write the code you intend to use on this screen below.

Write the code you intend to use on this screen below.
